Professional Summary

Front-End Developer with 2 + years of experience building responsive web applications using React.js. Contributed significantly to **Prepisely.com**, improving scalability and usability. Skilled in the React ecosystem, creating user-friendly interfaces, and delivering solutions for business needs. Strong team player with good communication skills.

Skills

- Frontend Technologies: JavaScript, React.js, HTML5, CSS3, Redux, React Query, Styled Component, Webpack.
- Backend Technologies: Node.js, Express.js, MongoDB, Mongoose, SQL.
- Other Skills: Git, VS Code, RESTful APIs, Agile Development, CI/CD Pipelines.

Professional Experience

Software Engineer

Prepisely Edutech Private Limited | April 2023 - December 2024

- Contributed significantly to the development of the company's frontend, ensuring a responsive and user-friendly experience.
- Played a key role in building and maintaining Prepisely.com, managing its performance and usability.
- Worked closely with cross-functional teams to develop and improve core features.
- Utilized React.js, Redux, React Query, Styled Components, and Ant Design to build scalable applications.
- Optimized and debugged frontend code for better performance and efficiency.

Frontend Development Intern

Prepisely Edutech Private Limited | October 2022 – April 2023

- Completed an intensive internship focusing on web development with React.js and modern frontend technologies.
- Assisted in building foundational components for the company's projects, quickly transitioning into a full-time role based on exceptional performance.

Projects

Budget Tracker App

- Developed a personal finance tracking web application using React, allowing users to efficiently monitor their budget, track savings, and manage expenses in a structured and organized way.
- Implemented key financial management features, including the ability to add, update, and delete expenses, providing users with real-time insights into their spending habits and savings progress.
